We have couple of games that we are preparing. But for round 1, we are playing “Decentralizer”.

Decentralizer is a game where we selected 5 small single operate SPO that we give them the Medal and the rewards. The SPO must try hard to promote, get delegator to delegate to his/her pool and give 1 of their delegator the rewards.

The delegator must delegate at least 10,000 ADA and stay for at least 10 epoch in one of the selected pools.

## **Which one is the selected pool?**

CHRTY, ICRYP, KAWAN, MYLO, ROSE

## **Why do you choose these pool?**

Since this is a pilot project, we choose couple of pools that support PIGY promotion and we know for a long time.

## **Are there any cost for delegator to join this game?**

No, no cost at all. However to the winner we might me ask to send us 1 ADA to confirm that the wallet is belong to the winner. But, we will return it with the PIGY. So, it is totally FREE.

## **Who can join the game?**

Anybody who have min 10,000 ADA, except people who live in Central African Republic, Comoros, Cuba, Equatorial Guniea, Falklands, Guniea Bissau, Iran, Johnston Island, Kiribati, North Korea, Mayotte Island, Myanmar, Nauru, Nlue, Saint Pierre Et Miquelon, Sao Tome & Principe, Sierra Leone, Solomon Island, Somalia, St Helena, Sudan, Syria, Tajikistan, Tokelau Island, Republic of Turkmenistan, Tuvalu, Wake Islands and any country that cannot be reach by FEDEX/UPS.

## **I only have 10ADA, Can I join the game?**

This term and condition are created for pilot project. It can change in the future. We will see how the ADA holder respond to this game. As long as we can achieve our main objective to help SPO making blocks and sustain Cardano Network decentralization. Then, this can change.

## **How do you decide the winner?**

Right now there are 2 ways how to choose a winner, either random pick or the biggest stake. This will be SPO decision.
